morning on business. Mr. Dan Nickum left this morning on business trip for the Bull Dog Plug.

Mr. Louis O'Shaughnessy, of the Cincin nati Enquirer, is registered at the Arcade.

Miss Carrie Swain and two or three of the company, are at the Arcade. The remainder of the company stop at the Lagonda. Interesting meetings are still in progress a

the Methodist Protestant church, on Pleasant

street. Meeting every evening this week at 7:30, except Saturday. Capt, Mark A. Smith, of the Champior City Guard, has received a handsome litho

graph of the camp grounds at Mobile, Ala. on which the great encampment of Nationa Guard is to be held next spring. The case against Gottlieb Baner, selling liquor on Sunday, was laid before Judge

Goode, without a jury, in court this after-

noon. At conclusion of arguments of coun sel the Court took it under advisement. Married: On Wednesday afternoon, February 11, at the Methodist Protestant parsonage, 58 Lincoln avenue, by Rev. C. S. Evans, Mr. George R. Kesler and Mary E. McCart-

ney, of Harmony township, Clark county, O. The western division of the I., B. & W. railroad, which suffered by the recent storm, has been dug out of the snow drifts, and passen ger trains are again making regular trips and connections, including that to Chicago. Trains on other roads are a little late occasionally, but the situation is much better all

The bars are down, and candidates for city offices are stepping boldly into the field. Mesers. R. F. Hayward, James Foley, and James P. Goodwin are announced in our columns in connection with the nomination for mayor; while Michael O'Neill, Esq., in a similar manner associates his name with the office of city solicitor.

The three men, John Hersuckle, William Lane and Frank Johnson, who were arrested for stealing two kegs of beer from a brewers wagon several nights ago, were before the Mayor yesterday. They entered a plea of guilty and Hersuckie and Lane were sentenced to twenty days' imprisonment in the county jail at hard labor (?) and Johnson two days.

The county infirmary authorities received information today that a family of eight persons who recently removed to Cedarville, Greene county, from South Charleston, was in destitute, even starving condition and a charge upon public charity. Some arrange-ment will be made for their relief where they now are, without bringing them to this

Friends here learned with deep regret of the death of Miss Fannie Ford, which occurred at half-past one o'clock this morning at her home near Urbana. Decased was a sister of Will Ford and of Mrs. H. A. Wise, of Andrews, Wise & Putnam and formerly herself resided here. She was the only child at home of all the family. Time of holding the funeral services is not yet announced.

A delighted party of little people were entertained last evening by Mr. and Mrs. Her- great difficulty in doing. She goes by man Voges, 406 South Market street, in the name of Mollie Johnson, but that is behonor of the birthday anniversary of Master lieved to be not her right name. He soon Herman- Voges, ir. Among those present were Misses Jessie Price, Fanny Butt, Jessie Harwood, Mamie Longstreet, Effie Shivel, Mary Cobaugh, and Masters George Buti, Icky Price, Charlie Bauer, Frank Harwood Willie Russell, and Willie Bauer.

The political battle is waxing warm. Al the candidates, and they are legions, are up and doing, and for the next two weeks nothing will be heard but politics. It is the opinion of a great many that on account of the little misunderstanding between Littler and the senator who opposed the former's bill, nothing will be done with the bill to abolish the office of marshal, and that in consequence \$4,000 or \$5,000 a year will be paid to that officer next term.

Rev. George Bethel, at one time secretary of the Young Men's Christian Association, of this city, was at the regular Wednesday evening prayer meeting, last night, at St. Paul church, and was warmly received by his old friends and acquaintances. During the evening he gave a very interesting account of his work in his circuit along the Ohio river about thirty miles above Cincinnati and said he was well pleased with the result. Mr. Bethel will remain here a few days.

The State convention of the Young Men's Christian Association will be held in Columbus this week commencing this afternoon and closing Saturday evening. The object of the meeting is to consider the work for the State, devise plans to better the work and strengthen it. At a meeting of the Wittenberg College Young Men's Christian Associa tion the following delegates were appointed to the State convention and left for Columbus this morning: Messrs. E. Huffman, S. S. Kauffman, C. W. Maggard, Lee Fleck, S. E. Greenewald, S. S. Adams, W. H. Kephart, F. L. Siegmund, J. S. Syman, G. W. Clark, W. F. Funk, E. O. Steininger, W. A. Hill, Piper, Zumbeck and Culler.

Amusements.

Carrie Swain in "The Little Joker," with new songs, dances, and specialty business, will be the attraction at Black's tonight. Tomorrow evening the thrilling drams "Unknown," will be presented at the Grand by its author, John A. Stevens, supported by an excellent company. The scenery and mechanical effects are rich and unusually fine, and include a faithful representation of the New York and Brooklyn bridge, with steam ers passing to and fro upon the East river.

Admission 50, 35 and 20 cents, The Cora Van Tassel dramatic company appears at Black's tomorrow evening in "Leah, the Forsaken," and Saturday matine in "Fanchon." This is the same company that played here last week to over 8,000 people and gave great satisfaction. Admission 10 and 15 cents. Reserved seats now on sale

Saturday evening a new play. The broad and funny musical conglomeration, "A Cold Day When We Get Left," will be presented at the Grand on Saturday evening, introducing novel stage tricks, traps and costumes, and enough mirth for everybody.

Reminiscences of the Women's Crasade. The regular meeting of the Women's Christian Temperance Union, in class-room No. 4. Central M. E. Church, yesterday afternoon, took the form of an observance of the eleventh anniversary of the "Whisky War," or Women's Crusade, which began here February 11, 1874, on which day the first band of praying women started out upon the streets. There was a large attendance yesterday, and the interesting exercises were generally and the interesting exercises were generally and On last Thursday evening quite a number in the sheartily participated in. Mrs. M. W. Banes of neighbors of Charles Hall and wife call-

read a good paper, specially prepared, reviewing the circumstances, work and results of the crusade, recalling vividly many of the rare incidents of that remarkable enstration. Appropriate remarks were also made by Mrs. Otstot, Miss Cavileer and Mrs. Maxwell, Mr. Geo. W. Brown gave his experience before, during and since the Crusace and, in the ourse of his remarks suggested that the W. C. T. U. proceed at once to engage the rink, or some other central location suitable for the purpose, and inaugurate a series of gospel emperance mass meetings, such as were kept up here continuously for years. He believed the period was ripe for a genuine temperance revival and that hundreds of young men would now sign the pledge if given such an opportunity. The matter will be considered at the next business meeting of the union.

Interesting remarks were made by Mrs. Banes and by Miss Crane, formerly one of the Crusaders here, now of Mount Clare, New Jersey, where a great 'temperance revivai is now in progress, as to which the lady re-

Something was said about an article, decriptive of the scenes, methods and workers n the Crusade as waged here, which filled several columns in the old Springfield Daily Republic, of February 17, 1874. Mrs. Anderson remarked that she had a copy of the paper with her, and producing it resd the article entire, with good effect. It was entitled: "The Revolution," and consisted of reports of speeches, prayers and conversations at places visited by the praying bands.

The meeting was profitable as well as cleasant and a progressive spirit was mani-

Return of Detective Norris With Snare

Detective John T. Norris arrived here from St. Louis at noon, via the Panhandle railroad, with Henry Snarenberger, whose arrest in that city on charge of embezzlement, was noted noted yesterday and the accused was lodged in jail to await an examination on the charge. The running him to cover was a neat piece of detective work. From letters received here by the young man the whereabouts of the Columbus girl for whom he was said to have deserted his family here, were discovered, and the detective's first step was to go to Columbus and hunt her up, which he had no found that the girl, who is said to be in a delicate condition, believed Snarenberger to When convinced to the contrary, and told that he had a wife and family here, she lost all control of her feelings and Norris obtained ready answers to his questions as to her

knowledge of the young man's movements. She divulged his whereabouts in Memphis and to a telegram of inquiry sent to the address given, or to the postoffice people, a reply was received that Snarenberger had ordered his mail matter forwarded to No. 1,606 Olive street, St. Louis, Another telegram sent to the police authorities there resulted in his being found and arrested at that place on Tuesday last, as already stated. He resisted violently, and would have shot the arresting officer, but the latter was too quick for him. Norris arrived in St. Louis yesterday forenoon, delivered his papers, and started on his return trip with the prisoner, who is now

ately in the county jail. He cried like a baby all the road home, in the sleeper, last night, and has eaten nothing of any amount since his arrest, so that he is now pretty well "broke up," as the phrase is. Besides the \$500 alleged to have been taken from his employer, Rhodes, the music dealer, other claims are coming to light which he had "jumped" on parties in town, including bills at the tailors,' notes for various amounts and other claims. His desertion of his family was cool and deliberate, he leaving letters stating he should never return here. His correspondence with the Columbus woman was the weak point that led to his undoing

A LIST OF OLD ENGLAND'S FLOAT-ING PEACE-MAKERS.

Weight of Belligerent Metal Brief Description of Iron-Armored Monsters - Central Battery Fleet-Coast Defense.

[Boston Globe.] Look now at the monsters—the admitted affectives. Of these there are now the In-lexible—balieved to be a match for anything affeat—of 11,890 tons displacement, having twenty-four inches of iron armor, on a solid backing of twenty-four inches of teak,

a solid backing of twenty-four inches of teak, of 8,010 horse power, and with four eighty on guns in her two turrets; a vessel whose ability to batter down fortifications alexandria's ruined batteries bear witness; the Dreadnaught, which has just relieved her in the Mediterranean, with four thirty-sight ton guns in her two torrets, and with ighter armor of only fourteen inches; the Thunderer, Neptune, Colossus, Edinburgh, Agamemnon, Ajax and Monarch, all two maret ships of varying types, the Thundered baving two 38 ton and two 35 ton guns; the having two 38 ton and two 35 ton guns; the others varying from four 43 ton breech loaders and two 6 inch guns to 38 ton and 12 ton guns; while the Monarch, known to Portland, Me., folks, as having brought over the body of George Feabody to that harbor, ass four 25 ton guns in her two turrets, two 12 ton guns and one 6½ ton—all muzzl loaders, and therefore not considered of the best kind, but also powerful at Alexandria. Named after the famous British admirals are the new barbette ships, the Anson, Benare the new barbette ships, the Anson, Ben-bow, Camperdown, Howe, Rodney and Col-lingwood, of about 10,000 tons each. The

first four are yet on the stocks. The Ben-bow will carry two 110 ton breech loaders, pretty little barkers, with a playful pro-jectile of 2,500 pounds weight or more, cal-sulated to knock out even John L. Sullivan himself—if within a range of nine miles. The other admirals have four 63 ton guns and smaller pets of six inches bere; while the Temeraire, Imperiouse and Warspite-smaller vessels of the same class-are con-

that with 25 and 18 ton cannon. Five turret rams, one of which is the New Hero, yet on the stocks, are also included in the list.

Then the central battery fleet—fine vessels, all of which have been successful—must be reckoned. There are eleven of these ships, be reckoned. There are eleven of these ships, from the Alexandra of 9,400 tons, with two 55 and ten 18 ton cannon, and with 12 inches of armor as her maximum, to the Orion of 4,870 tons displacement, which like the Belleisle, its sister ship, yet contrives to carry 12 inches of iron armor and four 25 ton guns. Of this class of ships the Swiftsure, Triumph, Audacious, Invincible and from Duke are almost alike, about 6,000 tons, arawing 20 feet of water, with eight inches of iron armor, and carrying each ten 12 ton of iron armor, and carrying each ten 12 ton muzzle loaders. Three armored cruisers, the Nelson, on the Australian station, the Northampton, flagship of the North Ameri-can fleet, recently at Newport, and the

can fleet, recently at Newport, and the Shannon, have 12 and 18 ton g ns.

For coast defense there are five good turret ships. The Glatton, a ram, has nine-leen inches of armor defending her turret, which has a 25 ton gun, and the Cyclops, Gorgon, Hecate and Hydra of two turrets each, eight and ten inches of iron armor, and with 18 ton guns. The turreted ships Magdola and Abysinia are in Bombay harhor, and the Cerberus, already mentioned, bor, and the Cerberus, already mentioned, at Melbourne. Then there are eighteen un-armored vessels, seven of which are fast cruisers, building in the royal dockyards, and carry 110 ton guns and will be disigned to

Accidentally Overheard.

[Lewiston Journal.]

An Auburn lawyer's little girl goes to th-school and is in a class with other

It was in a review last Sabbath in her class. The teacher was going over the good old story of King Solomon and his wisdom. "Now, dears, who was the great queen who traveled so many miles and miles to see this king?" Silence prevailed in the

ueen who came to see the king. The name had been forgotten by the class, in order to help them, the kind but misguided teacher began to offer a little assist-ance. "You do know, I am sure. The name began with S, and she was a very great

Just then, up shot a little hand, and out spoke the triumphant voice of the little Au-burn girl. She transfixed the listening school-room with the following brief state know, teacher; it was the queen of spades."

[Wall Street News.]

There is an old chap down in West Virginia who owns four-fifths of the stock in a coal mine which has never paid a dividend. He is also the father of a good-looking daughter, who has been many times sought after but never taken. When a young man has sparked her for about so long he has an interview with the old man, and the following colloquy takes place: "Ahem—sir—I ing colloquy takes place: "Ahem—sir—I—that is, I love your daughter." "Ah! indeed, Well, young man, money is necessary to wedded happiness." "Yes, sir; and I have \$10,000." "That is good. The next thing is to invest it safely. Bring your cash to me and I will sell you \$10,000 worth of Hole-in-the-Hill stock at 90 cents on the dollar." The young man is very much obliged, knowing that the stock is quoted at 28, and he withdraws his claim to the girl and calls out: "Next."

To Meet the Exigencies.

[Texas Siftings.]

A man, in order to meet the exigencies of the present winter, should have about five the present winter, should have about five overcoats, all of different weight. He needs a buffalo robe for early morning, and then, as the day rolled on he should be able each hour to den a lighter garment until midday when he could go without any, and then gradually increase the weight until he would get back to his buffalo robe at night. There is lots of climate this winter.

[Chicago Herald.]

Modern railways are about to invade the Holy Land in several directions. Turkish capitalists have obtained concessions, and will build lines immediately from Alexandretta to Aleppo, along the bank of the Euphrates, and eventually to Damascus. The aim is to connect the Syrian sea with the River Euphrates, one of the most impor-tant highways of Asiatic trade.

[Exchange.]
Edmund Yates says the royal dinners at Windsor are always very good, and the menu not long. Champagne and claret are the "prevailing" wines at the royal table. There is an immense stock of fine old port in the cellars, but very little is now drank.

A young man of New Haven, Conn., her a selection of 7,000 binds aggs, embracing manly 2,000 varieties.

An association of about 1,000 laborers has just arrived at Rome. They are about to drain the Campagna on strictly e-operative principles. This society has already constructed the Pace d'Arme, of Ravenna, built

principles. This society has are my constructed the Pace d'Arme, of Ravenan built several portions of the railway embankments in the Romagna, and recently competed to obtain the contract for the sanitary works of the Campagna.

The organization of these men recalls the free companies of journeymen masons who traveled over Europe during the middle ages, building cathedrals, constructing bridges, etc. They bring with them all necessary materials and tools, a doctor, a dispensing chemist, tailors, bootmakers and cooks from part of the association, so as to provide its members with the necessary medical care, clothing and food. A committee, composed of members of the association, freely elected, directs the work. The money received is first employed in providing all that is necessary for the existence of the memiers, then a portion is set aside to create a fund for old age and sickness, and all that remains after this is done is divided among the workers.

all that remains after this is done is divided among the workers.

This association, needless to say, is looked upon with much sympathy by all who take interest in the social question, and the government has supplied its members with railway tickets at reduced prices. A lady of Ravenna has also made the men a present of quinine to the value of \$300, so as to enable them to resist the malarial fever, for which the Campa on is notorious. Thus, at least. them to resist the malarial fever, for which the Campegna is notorious. Thus, at least, some among the Italian workmen, though unaided by such powerful organizations as English trade unions, have contrived, not merely to obtain better wages from the mid-dle-man, but to do away with him altogether and this too, when competing with ordinary and this, too, when co ontractors for public works.

Mark Twain's Cigars.

[The Critic.]

Like other American smokers, Mr. Clemens is unceasing in his search for a really satisfactory cigar at a really satisfactory price, and, first and last, has gathered a good deal of experience in the pursuit. It is related that, having entertained a party of gentlemen one winter evaning it Hartford, he gave to each, just before they left the house, one of a new sort of cigar that he was trying to believe was the object of his search. He made each guest light it be fore starting. The next morning he found all that he had given away lying on the smown beside the pathway across the lawn. Each smoker had been polite enough to smoke until he got out of the house, but every one gaining his liberty had yielded to the instinct of self-preservation and tossed the cigar away, forgetting that it would be found there by daylight. The testimony of the next morning was overwhelming, and [The Critic.] the next morning was overwhelming, and the verdict against the new was brand

Pure Drinking Water.

[Juliet Corson in Harper's Bazar.] There is no medium through which disea can enter the human system so readily and be so long unnoticed as the water used for drinking and cooking. When the drinking and cooking. When the source of the water supply is so located as to be ex-posed to contamination from drainage or the refuse of manufactories, it should at least be filtered before it is used, and if possible it should be boiled. The boiling will destroy all animal and vegetable life which may ex-ist in partly stagmant waters. Boiled water is injurity from the secare of the partly is inspired from the escape of the natural gases and the air which it loses during the boiling. The air can be returned to a degree by repeatedly pouring it from one was sel to another, holding them at a distance from each other, and its refreshing property than extend From it less relatable the water treated in this way is a perfectly safe

The Origin of the Fiddle

[Louise Andrews in The Current.] Mr. H. W. Taylor, in his recent papers on "The Cadence and Decadence of the Hoosies Fiddle," intimated that the violin s of Scotch origin, but, as an additional instance of the lack of originality of modern inver ns, it has lately been discovered that an trument resembling the violin of the present day was invented by Ravana, king of Ceylon, 5000 B. C.—a period so remote considering the improvements made, that a family resemblance would be hard to trace with any degree of satisfaction; and if an tiquity is the ne plus ultra of violin respecta-bility, the fact that "a string stretched across wood and set in vibration by a horse hair or some kind of fiber has been known to almost every nation of the earth," takes precedence of relationship to the violin as improved by
